Elements Hospitality Design Program

Phase 1 - Evaluation

Elements begins the design process by assessing your design goals and desires. We then couple these with your budget to develop a realistic understanding of your project, and what it will take to accomplish your project, in both time and finance. This initial evaluation will take several hours as the designers will need to get a very clear picture of what you, the customer is looking for. This initial design evaluation is always free of charge, with no obligation, as it is needed help us determine a comprehensive “blueprint” for your project, which we can then give you a proposal for. Things that will be discussed in the evaluation:

- ✦ Elements Design Agreement
- ✦ Desired start Date
- ✦ Desired Installation Date
- ✦ Blueprint / Information on layouts / what’s available to Elements to use during design process
- ✦ Construction Needs
- ✦ Budget
- ✦ Desired Design style
- ✦ Dislikes
- ✦ Customer’s expectations of Elements through the design process

Upon completion of the Evaluation, Elements will have a more clear picture of what it will take to complete the design process for the customer. This will give us the ability to put a price together for the design process, a price for the procurement of the project, and timelines for completion of the project.

Elements Design fee’s are always all inclusive, and there are never any hidden charges, or change orders necessary, unless the customer changes scope. Our final price, is our final price - Always!
